

Pressure Infusion Bags

Product Features:

- No natural rubber latex
- Integrated fluid bag hook
- Suitable hand bulb for inflation and deflation
- Precise pressure gauge for airflow testing
- Security clamp
- IV pole loop with extended suspension
- 100% leak tested after manufacturing
- Plenty of styles are optional
- Pressure Infusion Cuff
- Product can be customized according to new requirement

Styles and Accessories:

- 2 types of product: Disposable and Reusable
- 3 bag size: 500cc, 1000cc, 3000cc
- Piston gauge, aneroid gauge, metal gauge or waterproof piston gauge
- Stopcock or thumbwheel valve
- TPU film or Nylon Mesh

Certification

- ISO13485: 2016, ISO9001: 2015
- FDA, CE, BSCI
- REACH, ROHS, EMC, FCC
- BPA, PCB, PAHS, Phthalate free

Options:

Pressure Gauges

PISTON GAUGE (M1)

- Pressure range 0-300mmHg
- 360° gauge visibility
- Bleed valve prevents over-inflation

ANEROID GAUGE (M2)

- Pressure range 0-300mmHg
- Accurate and clear pressure to read

METAL GAUGE (M3)

- Pressure range 0-300mmHg, minimum scale valve at 2mmHg.
- Accurate and clear pressure to read, with higher precision

WATERPROOF PISTON GAUGE (M4)

- Pressure range 0-300mmHg
- 360° gauge visibility
- Bleed valve prevents over-inflation
- Prevent liquid splashing

Pressure Control Valves

3-WAY STOPCOCK (A1)

- Precise control of pressure
- Conveniently operated by one hand
Inflate/Deflate maintain pressure mode

THUMBWHEEL VALVE (A2)

- Instant control of pressure
- Open/Close mode

Sleeve

TRANSPARENT TPU (F1)

- Visibility and easy to monitor
- Not easy to fall off due to high friction
Easy to clean

NYLON MESH (F3)

- Less resistance for inflation and deflation

Basic Series:

The basic is made of durable white nylon. It is for single patient use and disposable.
